

Gurudev Dutt received his M.Sc. Physics from Tata Institute of Fundamental Research, Mumbai in 1998; M. S. in Electrical Engineering and Ph.D. in Physics from University of Michigan in 2004. Subsequently he was a Post-doctoral Research Fellow and then a Research Associate at Harvard University till 2010. He joined the University of Pittsburgh as an Assistant Professor in 2009. Prof. Dutt has won numerous awards including the Alfred P. Sloan Research Fellowship, Kavli Fellow of the National Academy of Sciences, NSF CAREER, and DOE Early Career awards. His areas of expertise include quantum information, solid-state quantum optics, and microwave and optical spectroscopy of solid-state materials and semiconductor nanostructures.
