Who We Are: NSWCDD

NSWC Dahlgren Division (NSWCDD)

Headquartered in Virginia, NSWCDD delivers advanced warfare systems to deter and defeat adversaries under the vision: *No peers, no fear*. Leveraging multidisciplinary scientific research, the division focuses on four strategic thrusts to rapidly equip the future fleet:

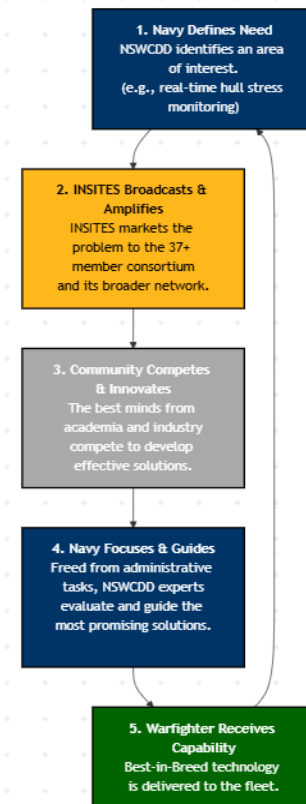

- Integrated Combat Power: Enhancing sensor-to-engagement cycles.
- Hypersonic Weapon Systems: Dominating the surface battlespace.
- Intelligent Automation: Overwhelming threats with AI and autonomy.
- Dahlgren Proving Ground: Accelerating physical and digital RDT&E.

Why partner?

This partnership creates a powerful exchange of opportunity awareness and advanced capabilities

- Navy Defines Need: NSWCDD identifies an area of interest
- INSITES Broadcasts & Amplifies: INSITES markets this "problem statement" to the entire 37+ member consortium and its broader network
- Community Competes & Innovates: The best minds from academia and industry compete to develop the most effective solutions.
- NSWCDD experts focus on curating and fostering opportunities for development and putting them in front of the community (BAA's, OTA's, SBIR, NSRP, etc)

Lets Get to Work!
